Reports of Students Feedback on Curriculum
Academic Year 2022-2023

Our Home University i.e. Savitribai Phule Pune University (Formerly Pune University) BA First Year Syllabus changed in the academic year 2019-2020, and B.Com. Subsequently, in the academic year 2020-2021, the university offered second year B.A. And changed the syllabus of B.Com. New Syllabus for Post Graduate Course, M.A. (Marathi), M.A. (Economics) and M.Com. (Business Administration) was started from the academic year 2019-2020. The above courses were introduced with Choice Based Credit System (CBCS). As per university guidelines, our college decided to seek student feedback on the revised syllabus. A Science Faculty has been started in 2022-23 along with two faculties namely Arts and Commerce in our college. These faculties consist of thirteen classes. IQACs of HEIs seek online feedback from students to encourage paperless work. The students of the college are from remote tribal and hilly areas. Keeping this in mind, IQAC has made a sincere effort to make the questionnaire bilingual i.e. in English as well as Marathi.

An analysis of student feedback shows that more than 92% of students are satisfied with the current curriculum, which meets the knowledge needs of students. When evaluating the overall program, students expressed that the overall difficulty level was easy. The feedback from the students shows that they are satisfied with the assessment method and performance of the faculty in the respective departments. The syllabus prepared by the university but the suggestions made by the students were welcomed and conveyed to the university through the members of the concerned board of studies during the syllabus restructuring meetings.

College activities for development. Rupesh Shardul In what way have the development activities organised by the College contributed to your overall development? As an artificial intelligence language model, I don't have personal experiences or emotions, so I cannot answer that question directly. However, I can provide a general response to how development activities can contribute to one's overall development. Participating in development activities organized by a college can provide individuals with a range of opportunities to learn new skills, gain knowledge, and develop personal and professional attributes. These activities can include academic courses, extracurricular clubs and organizations, volunteer work, internships, and career fairs. Through these activities, individuals can acquire a diverse set of skills, such as critical thinking, problem-solving, communication, teamwork, leadership, and adaptability. Additionally, development activities can help individuals to explore their interests and passions, and gain a better understanding of their values, strengths, and weaknesses. Overall, the development activities organized by a college can play an important role in shaping the personal and professional growth of individuals, and preparing them for future success in their chosen careers and in life in general.
