Attainment Ratio Report- Academic Year 2023-24**

The attainment ratio has been calculated for the college academic year 2023-24. Student achievement of POs, PSOs and COs is assessed through an assessment system tailored to the curriculum and its COs. Assessment includes seminar presentations, home assignments, tests, practical, research projects, workshops etc. for postgraduate and undergraduate programmes. The college provides opportunities for students to express their understanding through oral tests and written examinations. The result of the whole study is that the evaluation method is not a hindrance in evaluating the students of PO, PSO and CO of a particular course. Students can express their knowledge better and this definitely boosts their confidence. The college follows the evaluation system prescribed by the university. The various types of assessment include Intrnal exams, oral tests, end-of-course practicals and annual exams. These exams and results also measure the achievement of PO, PSO and CO.

Program outcomes are measured by student performance in the examination for which the degree is awarded. The results of each program and each subject are evaluated, analyzed and the achievements are assessed by the college. The result is submitted to the Principal for further action. Then, Principal prompts teachers to improve their subject matter for program outcomes. Teachers are encouraged to explore different methods to encourage students to acquire skills to improve results.
